

CONTEMPORARY SCULPTURAL BRUTALIST CABINET

This compact sideboard brings sculptural elegance to smaller spaces. Crafted in Italy, its facade features a distinctive grid of hand-carved circular motifs that lend rhythm and texture to the natural wood grain. Resting on a brass plinth, the warm tones of the wood are beautifully offset by the metallic base, offering both visual contrast and a sense of lightness.

Perfect as a hallway console, media unit, or accent piece in refined interiors, this sideboard offers functional storage with high-impact design in a smaller footprint.
